TECHNICAL SKILLS

Languages: Javascript, Handlebars.js, Node.js, JQuery, CSS3, HTML5, Bootstrap, SQL
Applications: MqSql Workbench, Insomnia, Heroku, Jest, restful API's.

PROJECTS

Triply | github.com/GitOffMyFarm/Escape-Array **|** https://polar-spire-28260.herokuapp.com/
Minimalist travel site targeting budget travellers.
- Used MVC structure to set structure of the code, designed models, input and uploaded 154 columns of data across four tables using sequelize, refined API routes.
- Launched server using express, reconfigured and launched server on Heroku, formatted data using Handlebars templating engine for server side rendering and styled using bootstrap.
- Languages: Javascript, Node.js, express, SQL, Sequelize, Handlebars.js, Bootstrap

Recipe Box | github.com/GitOffMyFarm/Recipe-Box | gitoffmyfarm.github.io/Recipe-Box/
- Front-end application where you can search the Edamam recipe API for new recipes and the Spoonacular API will give you a wine recommendation. Stores recipes you like on a separate page using local storage.
- Wrote all the front end javascript including API calls and the card generators, did some touching up to formatting in foundation so that cards were centered and could display two in a row for desktops
- Languages: Javascript, JQuery, Foundation, CSS, HTML

EXPERIENCE

Tenant Surveyor/Tenant Research Technician/Tenant Researcher I   2017 – 2020
CoStar Group   Richmond, VA
Worked my way up through three roles within the company during my time there. Investigate and manage tenant and building information through interviews, public record, and web research to manage, update, and ensure accuracy of their commercial real estate database.
Key Accomplishments:
- Interview of the month twice for my detailed data collection and recording of that data.

EDUCATION

Bootcamp Certificate: University of Richmond, Richmond, VA
24 week intensive program designed to hone skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
